LEGAL EXPERIENCE: IN-HOUSE COUNSEL & PRIVATE PRACTICE

Flatiron Constructors

September 2014 - Present

Vice, President Legal

Flatiron is a large infrastructure company with construction projects, primarily road and bridge projects, based in Canada and the US.

Reports to US Parent CEO and COO on all legal matters relating to Canadian operations for projects in BC, Alberta, Manitoba, Saskatchewan and Quebec; Lead Counsel for US and Canadian claims and litigation and Canadian P3 projects.

Walter Energy, Vancouver, BC Senior Counsel

August 2011 – August 2014

Walter Energy was a publically traded coal mining company with mines in Canada, the US and the UK, with 4,000 employees and annual revenues of \$2.4 billion.

Part of a 5 lawyer team reporting to the US General Counsel on all legal matters relating to Canadian, US and UK operations including:

- Management of the Canadian class action Gould v Western Coal Corp. 2012 ONSC 5184 and dealing with insurers to recover legal costs incurred.

Jenkins Marzban Logan LLP, Vancouver, BC Associate

September 2008 - July 2011

Solicitor and litigation practice primarily in the areas of construction and insurance law.

- Advising on contractual issues for an Owner relating to a large methanol plant in Diametta, Egypt which included visiting the site in Egypt to obtain witness evidence.
- Advising the company responsible for the media centre at the Convention Centre and sites in Whistler for the 2010 Olympics in relation to disputes and contract drafting.
- Advising on several P3 projects for clients bidding on those projects as contractors or concessionaires including representing the successful design-builder for the \$297 million Fort St. John Hospital.

- Advising engineers, architects, contractors, subcontractors and owners on various contractual and litigation issues relating primarily to construction or insurance law.
- Representing clients at mediations, arbitrations and court applications.

Channel Tunnel Rail Link Project, London, UK
Assistant Project Lawyer

May 2004 - April 2008

Part of a three lawyer team advising the board of directors one of the UK's largest infrastructure projects, the £5.8 billion Channel Tunnel Rail Link/High Speed One Project linking the UK and France.

The Project comprised the construction of a 108km high speed railway line from a new international terminal in London through two new international stations to the British end of the Channel Tunnel.

- Advising on all aspects of multi-million pound adjudications and arbitrations from contractors relating to final account claims, loss and expense, defect and workmanship claims.

Mayer Brown LLP, London, UK

Sept 1999 – May 2004

Articled Student and Associate in Construction and Engineering Group

- 2 years training as an Articled Student including 6 months spent in each of the Banking, Construction and Engineering, Employment and Insurance and Reinsurance Groups.
- Qualified as an Associate in 2001 into the Construction and Engineering Group.
